Spring Faculty Appreciation Reception

WEDNESDAY, APRIL 1, 2020

5 P.M. – 7 P.M. | HARRELL MEDICAL EDUCATION BUILDING
1104 NEWELL DRIVE | SCOTT COMMONS AREA

Please join us for a networking reception where you can celebrate with your colleagues in a relaxed social setting. Gold pins will be presented to faculty with 20, 30 and 40 years of service.

2020 winners will also be announced for: Clinical & Basic Science Teachers of the Year, David A. Paulos Award for Clinical Excellence, Faculty Council Lifetime Achievement Awards, Clinical & Basic Science Research Awards

CLICK HERE TO RSVP BY MARCH 27

The University of Florida College of Medicine invites you to the Celebration of Diversity Week
Dear colleagues,

Please mark your calendars for the fourth annual Celebration of Diversity Week at the UF College of Medicine, which will take place March 30 - April 4. Many exciting opportunities to engage in dialogue about diversity, inclusion and health equity have been planned by departments across the College of Medicine. Guided by the diversity week organizing committee, we have gathered an impressive list of speakers this year, including Dr. Otis Brawley, the Bloomberg Distinguished Professor of Oncology and Epidemiology at Johns Hopkins University and former chief medical and scientific officer and executive vice president of the American Cancer Society. We also will welcome Dr. David Acosta, chief diversity and inclusion officer at the Association of American Medical Colleges, and Dr. Anne M. Etgen, professor emerita at Albert Einstein College of Medicine. Dr. Ibram Kendi, an author, historian and 2016 National Book Award winner, returns to UF as the keynote speaker at this year's Emerald Ball.

The week will kick off with a Dean's Grand Rounds Monday, March 30, at noon at the Harrell Medical Education Building and continue through the week with individual department grand rounds as well as college-wide events in the Harrell Building. This year, the UF student organization Unity in Diversity will hold a 5K Run, Walk & Roll Race Saturday morning, April 4, that will help raise funds for UF College of Medicine student scholarships.

I encourage you to visit the webpage that lists the week's events, med.ufl.edu/diversity, and I look forward to these discussions as we work together to create an institution that meets the needs of the diverse populations whom we teach, collaborate with and serve.

Joseph A. Tyndall, MD, MPH  
Interim Dean  
UF College of Medicine

Research Reproducibility 2020 conference
Save the Date (3/17)

Join us March 17, 2020 for Research Reproducibility 2020: Educating for Reproducibility at the Reitz Union. This conference will bring together experts and novices, researchers and educators, and students and administrators from multiple disciplines and institutions to explore best practices, innovations, policies, and new ideas for education around reproducibility, replicability, and rigor.

Keynote speaker Brian Nosek is the co-founder and Executive Director of the Center for Open Science (COS). He and the COS team are pioneers and leaders in discussing and teaching open, reproducible, and transparent practices in research. He will be joined by panelists representing a wide range of disciplines and educational techniques from across the nation.

We'd also like to feature you! If you have great ideas or experiences with education on rigor and reproducibility, submit a proposal today.

UF W. MARTIN SMITH INTERDISCIPLINARY PATIENT SAFETY AWARDS

Application submission period is opening again soon!

Please be sure to have your completed applications ready to email to SIPSmith@sip.ufl.edu starting January 1, 2020; we will accept applications until March 31, 2020.

Last year we made the following changes to the awards administration:

- There will be one award cycle per year.
- There will be a 3-month open submission period from January 1 to March 31, applications will no longer be accepted year-round.
- The selection committee will meet once a year in April to review applications and decide on winners.

If you haven't already done so, please visit our website at http://flbog.sip.ufl.edu/uf-w-martin-smith-safety-awards/ for additional details regarding Smith Awards application requirements, our current 2019 winners, our previous winners, their project achievements, and more.
Thank you for keeping patient safety a priority!

**Congratulations!**

**Chief Research Information Officer**

Dear Colleagues:

We are pleased to announce the appointment of Christopher (Chris) A. Harle, Ph.D., as chief research information officer for UF Health. In this role, Dr. Harle will provide leadership around operations and governance of information technology that support research activities across the UF Health campus, including UF Health Shands Hospital, UF Health Jacksonville and associated practices. He will play a leadership role in strategy and operations around the UF Health Integrated Data Repository, part of the UF Clinical and Translational Science Institute, and in innovative uses of Epic to support clinical and translational research and the learning health system.

The health-focused chief research information officer role is new to UF and is emerging nationally as a way for academic health centers to address the challenges and opportunities clinical researchers face in the increasingly digitalized, data-intensive health care system.

Dr. Harle, who joined the department of health outcomes and biomedical informatics as a full professor this month, has a research focus in the design, adoption, use and value of health information systems. Previously, Dr. Harle served as an associate professor with the department of health policy and management at the Richard M. Fairbanks School of Public Health at Indiana University in Indianapolis, and he remains an affiliated scientist with the Regenstrief Institute's Center for Biomedical Informatics in Indianapolis. Until 2015, he was
Dr. Harle holds a doctorate in information systems and management from Carnegie Mellon University's H. John Heinz III College, and a bachelor's degree and master's degree in decision and information sciences from UF's Warrington College of Business Administration.

Please join us in welcoming Dr. Harle to this new role.

David R. Nelson, M.D.
Senior Vice President for Health Affairs, UF & President, UF Health

Gigi Lipori, M.T., M.B.A.
Senior Vice President and Chief Information Officer
UF Health

American Academy of Neurology (AAN)

Irene Malaty, MD. Clinical Associate Professor, Department of Neurology has been elected to serve on the executive committee of the American Academy of Neurology Neuroendocrinology Section, as the Movement Disorder Subsection Chair.

Wissam Deeb, MD. Clinical Assistant Professor, Department of Neurology has been elected to serve on the executive committee of the American Academy of Neurology, as the LGBTQI Section Vice Chair.

New Grants Awarded!

Liya Pi, PhD. Research Assistant Professor, Department of Pediatrics has been awarded a new National Institutes of Health R01 grant entitled, "Regulation of the pro-fibrotic connective tissue growth factor in alcoholic liver disease: mechanisms and targeting approaches".
Roger Papke, PhD. Professor, Department of Pharmacology & Therapeutics has been awarded a National Institutes of Health R01 grant renewal entitled, “Targeting of Alpha7 nAChR for therapeutic effects”.

Marcelo Febo, PhD. Assistant Professor, Department of Psychiatry has been awarded a new National Institutes of Health R21 grant entitled, "Imaging Networks of Affective Behaviors and Dopamine in Alzheimer's Disease".

Lingtao Jin, PhD. Assistant Professor, Department of Anatomy & Cell Biology has been awarded a new National Institutes of Health R37 grant entitled, "The role of NFIB-MAST1 signaling in mediating adaptive cisplatin resistance in SCLC".

Second Fridays of each month, 12:00 noon - 1:00 pm (feel free to bring your lunch!) All sessions in room C1-17 unless otherwise noted

It takes a Village - Register to Serve as a Career Coach for a UF Postdoc (time commitment - 4-6 hrs over 1 year)
The UF Postdoc Career Coaching Program has been developed to provide structured assistance to postdoctoral trainees that seek to expand their network of coaches and mentors in order to facilitate career success.

After registering, you will be paired with an appropriate mentee based on your registration survey responses. Mentees will be current UF postdoctoral scholars. Each coach-mentee pair will be asked to meet 4-6 times throughout the year to discuss mentee career objectives. Meetings can be remote or in-person. We welcome mentors that live and work outside of Gainesville, and from a variety of professional fields and career sectors.

Register to serve as a coach for 2020

Contact Lily Lewis, Director for the Office of Postdoctoral Affairs with questions.

HSC Library Spring 2020 Workshops

The Health Science Center Library will offer the following workshops this semester, independent of registered coursework and open to all. Unless otherwise noted, please register at least 24 hours in advance by clicking on the desired workshop link below or at: https://ufl.libcal.com/calendar/HSCLWorkshops/.

Biosketch Bootcamp
Tuesday, March 24, 11am-12pm, Communicore Building, Room C1-121 (BITS)
A biosketch is used to highlight each individual's qualifications for a specific role in a proposed project. NIH requires a biosketch for senior/key persons applying for or renewing NIH grants. This class goes over tips and tricks on how to format your NIH Biosketch for upcoming NIH grants. Feel free to bring your biosketch and learn new formatting ideas!
https://ufl.libcal.com/event/6362033

Best Practices in Research Data Management
Monday, March 30, 12-1:30pm, Communicore Building, Room C2-41A
Thursday, April 23, 12-1:30pm, Communicore Building, Room C2-41A
Learn practical strategies for best managing your research data. A number of U.S. funding agencies such as the National Science Foundation and the National Institutes of Health require researchers to supply plans for managing research data, called Data Management Plans (DMP), for all new grant proposals. This workshop will provide an overview of the questions to consider when creating a data management plan, with a focus on the DMPTool and tools for sharing your data at the University of Florida (e.g. subject-specific repositories). Topics include metadata and annotation, file formats and organization, storage, backups and security, and data sharing. The workshop is geared toward graduate students, faculty, and researchers.
March: https://ufl.libcal.com/event/6363347
April: https://ufl.libcal.com/event/6363351

F1000 Workspace
Wednesday, April 15, 12-1pm, Communicore Building, Room C1-121 (BITS)
If you are interested in a citation management software with the ability to cite and annotate resources and websites online, F1000 Workspace might be the tool for you. This class will briefly mention Faculty of 1000's other sites, Prime and Research, but will focus on the functions of F1000 Workspace
https://ufl.libcal.com/event/6291979

Embase (Webinar)
Wednesday, April 8, 12-1pm, online
Same content as above. This session is available as a live webinar. Zoom link will be sent to registrants at least one week before the session.
https://ufl.libcal.com/calendar/HSCLWorkshops/Embase-Online-Spring-2020

EndNote
Monday, March 31, 11am-12pm, Communicore Building, Room C1-121 (BITS)
Monday, April 28, 11am-12pm, Communicore Building, Room C1-121 (BITS)
Come and see what you can do with EndNote, a program designed to help you organize your reference citations. You will learn how to create and navigate the EndNote libraries, enter individual citations, and search/retrieve citations from EndNote, as well as how to download citations from PubMed, library catalogs, other databases, and import them into your library. We will learn how to use the 'Cite While You Write' toolbar and different ways of inserting citations into your papers for publication. It's easy to generate a bibliography according to the style of any particular journal! This class focuses on the desktop version of EndNote and addresses some unique features of EndNote Online.
January: https://ufl.libcal.com/event/6361996

Your Ombuds- Confidential resource for faculty

The Office of the Ombuds for Faculty provides a confidential environment in which faculty can receive informal, impartial and independent assistance for conflict resolution. The Ombuds may also offer assistance to faculty seeking information on university conflict resolution processes.

The role of the Ombuds is to offer an impartial perspective in informal resolution procedures. The Ombuds does not advocate for an individual or the institution nor attempt to mediate a dispute. The Ombuds does not replace the institution's existing processes and resources for formal conflict resolution.

The Ombuds will:

- Provide a confidential environment to listen to questions and concerns
- Help identify alternative options and appropriate resources
- Explain University policies and procedures, including informal resolution and grievance options
- Offer an impartial perspective
- Assist with early strategizing to solve problems and minimize the potential escalation of conflict
- Identify patterns of emerging issues and, as needed, recommend university policy review based on these patterns
Appointments with the Ombuds should be made by email at stonek@ufl.edu.

To maintain confidentiality use email only to schedule appointments.

The email message should read, "My name is (.........) and I would like to make an appointment with the Ombuds. My contact information is (email address) and (phone number)"
As it gets harder to find funding to move your innovation from the bench to the marketplace, small business grants and contracts are more important than ever. Help increase your competitive edge by joining us for our upcoming **SBIR (Small Business Innovation Research)/STTR (Small Business Technology Transfer) Workshop** run by Jim Greenwood of Greenwood Consulting. This workshop is designed for any and all companies, entrepreneurs, inventors, researchers, and postdocs who want to be successful in applying for SBIR opportunities.

**The SBIR/STTR Proposal Preparation Workshop** begins with an overview of the programs and then takes you through a simple but comprehensive process for developing a credible and competitive Phase 1 (up to $256,000) proposal. The day concludes with an overview of Phase 2 of the programs, with tips for companies preparing Phase 2 (up to $1.6 million) proposals. The program will emphasize NIH and NSF applications but will be relevant to other SBIR/STTR agencies as well. Hosted by the Collaboratory for Women Innovators.

No refunds for cancellations (but registration can be transferred).

---

**Jim Greenwood Biography**

Jim Greenwood and his wife, Gail, have been involved in the SBIR program since its inception in 1983. The Greenwoods have taught SBIR/STTR workshops in 48 states plus Puerto Rico and Washington D.C., offering training through local and regional economic development groups, universities, Federal laboratories (including Livermore, Sandia, Los Alamos, Brookhaven, Pacific Northwest, Savannah River and Oak Ridge), SBDCs and MEPs.

The Greenwoods also have taught at many of the National SBIR Conferences over the past 17 years, including the most recent national conferences in Austin, Washington DC and Tampa. They also presented proposal preparation workshops at the 2016 National Institutes of Health (NIH) National SBIR Conference, and Dept. of Defense’s 2017 Beyond Phase 2 Conference. They are recipients of the coveted Tibbetts Award, based on their contributions to SBIR/STTR outreach and education efforts, and were recognized by the Small Business Technology Council as “Champions for Small Business” for their outreach efforts during the latest SBIR/STTR programs reauthorization effort.

In addition to offering SBIR/STTR training, the Greenwoods provide applicants with critiques of draft proposals before they are finalized and submitted for funding. They have performed more than 800 such reviews over the past decade, and have always been able to offer suggestions that made the proposals stronger contenders for SBIR/STTR funding.

Jim Greenwood has served as a commercialization reviewer for the SBIR and STTR programs at the National Science Foundation (NSF), reviewing both Phase 1 and 2 proposals, as well as proposals for NSF’s supplemental programs such as Phase 1b and Phase 2b. The Greenwoods also have served on the US Army’s review panel that makes Quality Awards for the Army SBIR/STTR projects with the greatest commercialization potential.

The Greenwoods are under contract with the University of Texas System to assist graduates of the UTS I-Corps program in applying for SBIR/STTR funding. They are a contractor to the University of Illinois Incubator Network to provide training across their state. And as a subcontractor to Dawnbreaker, Inc., the Greenwoods are serving as coaches for clients of the Phase 0 program of the US Department of Energy’s SBIR/STTR office, including women-owned businesses (WOBs) and minority-owned businesses (MOBs). Recently, GCGI was awarded a contract with the Office of Science, DOE (OSSC).
Tenure and Promotion Workshops for Faculty are open for Registration

Workshops have been scheduled to discuss the preparation of tenure and promotion packets and the University evaluation process for 2020-2021.

We encourage faculty who will be submitting packets this fall, members of this year’s college/unit review boards, new hires, and other interested faculty who may be going through the process in the near future to attend one of these sessions: these sessions:
