*Applicants with two primary appointments must consolidate the assignments in one effort table to show proportional activity across both appointments. *Note: overload assignments are not reported in the promotion packet.

*If you have questions about the effort reported, contact your unit effort reporting coordinator.

Please delete this text box after completing this section

UF teaching evaluations for the past 10 years will auto-populate in this section. For cases involving only promotion, include evaluations only since your last promotion not to exceed ten years. In the box provided for each course, you must indicate whether or not the course was team-taught (and the percentage for which you were responsible), the mode of delivery (classroom, online, distance learning context,) and whether the course was required.

(Required courses are General Education courses, or those required for a particular major.) If you have any questions as to the accuracy or completeness of the data, send a query to evaluations@ufl.edu and GatorEvals-Support@ufl.edu. Any inaccuracies must be corrected in the database in order for them to be permanent. If any corrections are made in the Evaluation database, you will need to save and reload the template again as a PDF file. The University process does **not** require a summary of all teaching evaluations. If your college does require a summary, it can be entered in this section. **NOTE:** The departmental and college means are calculated using only either undergraduate or graduate courses, depending on the level of the course being evaluated.

In cases where the number of responses is greater than the number enrolled, provide a footnote explanation.

If teaching evaluations completed during the last five years from other institutions are available, you may include them in Section 33.

Downloading the Reports

Go to each department to collect the evaluation data.

Go to Evaluations > Reports and collect the data for the semester by using the calendar icon to set the date range.

Because our courses do not follow the UF semesters system, there is no perfect way to get all of the evaluations for a given semester, so one recommendation is to use back-to-back cutoff dates so that no evaluation overlaps or goes uncounted. Below is a suggested block of dates for the 2017 – 2018 academic year.

- 2017 Fall: 8/6/2017 – 1/5/2018
- 2018 Spring: 1/6/2018 – 5/5/2018
- 2018 Summer: 5/6/2018 – 8/5/2018

This is the date range set for Fall 2018.

11. EDUCATIONAL PORTFOLIO (if applicable)

Please delete this text box after completing this section

This section is for those units where faculty are expected to develop portfolios in which they document excellence in educational scholarship, leadership and service. If you are in one of these units, include a summary of the recommended portfolio, if available. The full portfolio should be available off-line and may be requested for review.

Faculty such as Lecturers whose primary assignment is in teaching and service should include in this section illustrative examples of materials that document the instructional accomplishments described in Section 9. Examples may include sample exams, excerpts from syllabi, and any evidence of teaching effectiveness. Select sample materials carefully: the quality of the materials is more important than their quantity.

Educational Portfolio, College of Medicine, 2019-20 Template

The five headings listed below are designed to provide candidates with the opportunity to document their achievement of distinction in teaching/education. Include all elements that are relevant. You do not need to list items which are not applicable to your circumstances. This segment is not intended to duplicate other aspects of the packet, but to enhance and expand the descriptions of your educational accomplishments. You may also indicate “see Educational Portfolio” for relevant referencing within your description of accomplishments in Section #9 (Teaching, Advising, and Instructional Accomplishments). However, you should not avoid completion of a thoughtful response to Section #9. The quality of the elements included in this portfolio is more important than quantity. **Please keep to a limit of 12 pages for the entire portfolio.** You may include selected illustrative examples of course syllabi, assessment tools, novel instructional media, etc. in this portfolio (#3f). **Instructions (in italics) may be deleted** from the completed portfolio.

*Do not delete the publications key, please still delete the instructions above.

*You should use the on-line publication tool for this section-Publications will format into the online template and you can then cut and paste that section back into your main working document.

*You will want to include all sections numbers etc. and place the word “None” if the faculty member does not have any information to provide.

*You should number each section starting with number 1.

*Use Section 34 for acceptance letters and information on submitted or forthcoming publications.

*Books that are under contract but have not yet been completed or accepted for publication are to be listed in Section 34. (Note that a contract from a publisher is not sufficient to claim a book is “accepted” or “in press.”)

Do not include theses and dissertations in the publication listing.

The following information should be considered when compiling the publication listing:

(1) Refereed Journals: A paper is considered “refereed” if it appears in a journal (or proceedings) whose papers are published only after review and acceptance by one or more independent professional expert(s) of national or international standing.

(2) Refereed Proceedings: Should be listed as a separate category under Refereed Publications, and the nominee should provide a brief explanation of the review process for the proceedings. This may be entered as a footnote to the publication list.

(3) Non-refereed Publications: Materials listed under non-refereed publications should include not only those journal articles that have not been refereed, but also extension publications delivered in print or via electronic format, and electronic bulletins.

(4) When listing publications, please do not use the term “forthcoming.” Use one of the following:

(a) Accepted: A publication is defined as accepted if it has been finally accepted for publication by an editorial board or similar entity empowered to authorize publication, and will appear in print in the future.

(b) In press: A publication is defined as in press if it has been accepted for publication and has been copy-edited, or otherwise made ready for publication at a date certain.

If a publication is listed as “accepted” or “in press” in Section 16, a copy of the letter of acceptance must be included as a PDF in Section 33. Please include the name of the article on the acceptance, if it is not already stated, and indicate the approximate length of the publication in the citation.

- (c) Submitted: The term “submitted” refers to a manuscript that has been submitted to a publisher for publication review. Submitted publications are to be listed in Section 33 rather than Section 16. If the publication is still in the writing stage, please do not include it in the packet. Books that are under contract but have not yet been completed or accepted for publication are to be listed in Section 33.
- (5) Graduate students, post-docs, residents, fellows and interns listed as authors should be identified using the key.
- (6) Be sure that pagination is listed. If an article is longer than one page, give first and last page numbers.
- (7) Media releases are considered “Miscellaneous” publications.
- (8) “Reviews” refers to reviews written by you about someone else’s work. Reviews of your work, if included, should be listed in Section 14 or Section 33.
- (9) Publication citations of works written in a foreign language should be accompanied by an English translation in parentheses.
- (10) All publications must appear in one of the categories provided.
- (11) Do not include theses and dissertations in the publication listing.

The following chart should be completed and expanded as available.

Year	2019-20	2018-19	2017-18	2016-17	2015-16
Clinical FTE					
RVU target					
RVU actual					
UHC target* for ___ clinical FTE					

Please delete this text box after completing this section

May be obtained from the Department Administrator. Be sure the UHC (University HealthSystem Consortium) target for comparison is selected for a similar %clinical effort or is explained in a footnote to the table. If your department uses another national standard for comparison of workload expectations, substitute that standard for the UHC target and briefly describe the basis for its assessment. If your clinical FTE assignment includes leadership or administrative components that will not result in billable RVUs, adjust your actual clinical FTE to an “effective clinical FTE” and provide an explanation in a footnote. E.g. if you have 75% clinical assignment which includes 25% assignment to provide administrative oversight of an ICU beyond the time providing clinical care, base your RVU targets on a 50% clinical FTE and place an “” for each year with a clinical FTE that differs from the assignment listed in Section #4 (Assignment Since Last Promotion or Since UF Employment) of your packet.
