# New Access to Physician Well-Being Index!

*Today is Mental Health Action Day—*

*One concrete step you can take is to check-in on your current wellbeing. UFCOM Physicians now have access to an anonymous online tool to quickly/easily evaluate your current wellbeing, compare your score to peers, track your results over time, and confidentially access relevant resources to support your health and wellbeing.*

**\*\*It only takes 1 minute!\*\***

Scan the QR code below or click this link to sign up: <https://mywbi.org/uf-com>

NOW OPEN TO UF COM PHYSICIANS

# WELL-BEING INDEX

an anonymous web-based tool used to evaluate

**6** DIMENSIONS OF DISTRESS AND WELL-BEING in **9** SHORT QUESTIONS

## Congratulations!

### Robert A. Winn Diversity in Clinical Trials

Amira Quevedo, MD

Assistant Professor, Department of Obstetrics and Gynecology has been selected as a participant in the Robert A. Winn Diversity in Clinical Trials: Career Development Award (Winn CDA).

## New Grants Awarded!

## New Grants Awarded!

**Lusine Yaghjian, MD**

Associate Professor

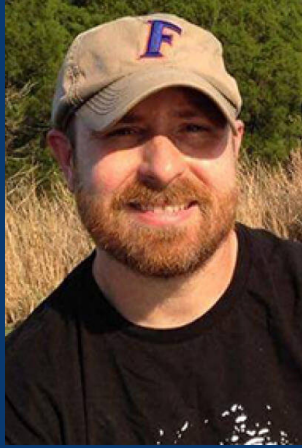

Department of Epidemiology has been awarded a new National Institutes of Health R01 grant entitled, "Stromal contributions to breast carcinogenesis"

**Rebecca L Wilson, PhD**

Assistant Professor

Department of Physiology and Aging has been awarded a new National Institutes of Health K99 grant entitled, "Developmental Programming of the Liver and Kidney in Fetal Growth with or without Gene Therapy"

**David W Hammers, PhD**  
Assistant Professor  
Department of Pharmacology & Therapeutics has been awarded a new National Institutes of Health R01 grant entitled, "Understanding the Mechanisms of Fibrosis in Muscular Dystrophies"

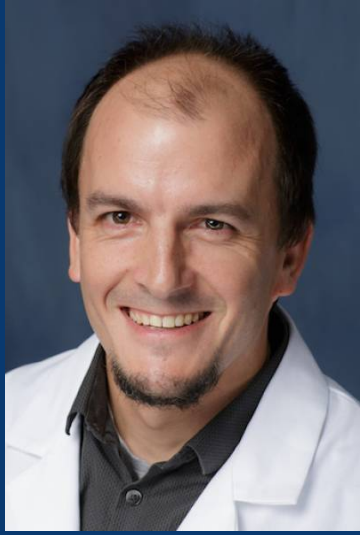

**Robert T Mankowski, PhD**  
Assistant Professor  
Department of Physiology and Aging has been awarded a new National Institutes of Health R35 grant entitled, "Understanding pathology of sepsis-induced physical disability for future precision medicine."

**Colleen Kays Gutman, MD**  
Assistant Professor  
Department of Emergency Medicine has been awarded a new National Institutes of Health K23 grant entitled, "Implicit racial bias in pediatric emergency medicine: A foundational investigation of physician behaviors"

**Ramzi George Salloum, PhD**  
Associate Professor  
Department of Health Outcomes and Biomedical Informatics has been awarded a new National Institutes of Health R01 grant entitled, "Sustainability of Tobacco Cessation Programs at NCI-Designated Cancer Centers"

**Eric Jorge Nelson, MD**

Associate Professor

Department of Pediatrics has been awarded a new National Institutes of Health R21 grant entitled, "Improving Performance of a Pediatric TeleMedicine and Medication Delivery Service through mHealth Technology"

**Helen N Jones, PhD**

Associate Professor

Department of Physiology and Aging has been awarded a new National Institutes of Health R01 grant entitled, "Efficacy and safety of nanoparticle mediated placental gene therapy in nonhuman primates"

**Qihong Li, PhD**

Associate Professor

Department of Ophthalmology has been awarded a new National Institutes of Health R01 grant entitled, "Pro/renin receptor-mediated signaling in pathogenesis of diabetic retinopathy"

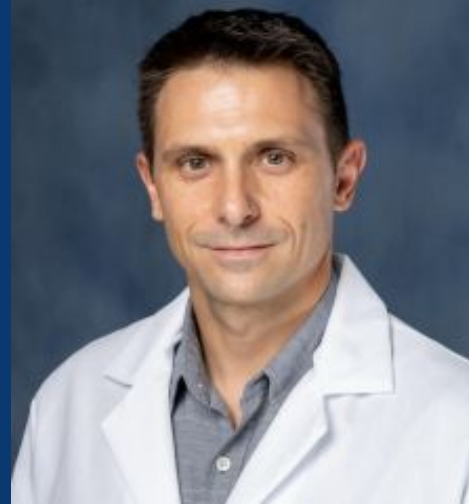

**Martha L Campbell-Thompson, DVM  
PhD**

Professor

Department of Pathology, Immunology, & Laboratory Medicine has been awarded a new National Institutes of Health S10 grant entitled, "Olympus VS200 Brightfield/Fluorescence whole slide scanner with slide tower"

**Catherine T Flores, PhD**  
Associate Professor  
Department of Neurosurgery has been awarded a new National Institutes of Health R21 grant entitled, "Developmentally regulated antigens for immunologic targeting of pediatric brain tumors"

**Loic Pierre Deleyrolle, PHD**  
Assistant Professor  
Department of Neurosurgery has been awarded a new National Institutes of Health R21 grant entitled, "Optimizing CAR T therapy via metabolic engineering for the treatment of GBM"

**Brian K Law, PhD**  
Associate Professor  
Department of Pharmacology & Therapeutics has been awarded a new National Institutes of Health R21 grant entitled, "HER1-3 and Death Receptor protein folding as therapeutic vulnerabilities"

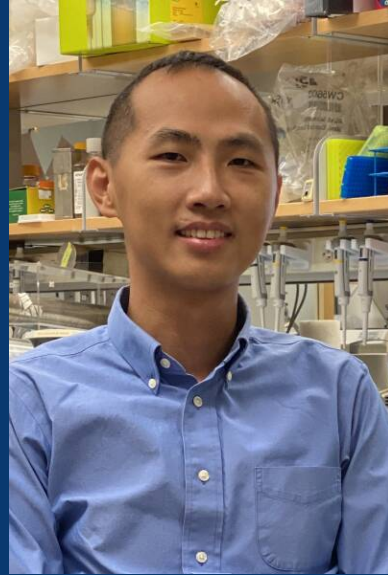

**Habibeh Khoshbouei, PhD PharmD**  
Professor  
Department of Neuroscience has been awarded a new National Institutes of Health R01 grant entitled, "Vagus nerve stimulation increases basal dopamine levels in the brain to decrease methamphetamine-mediated responses"

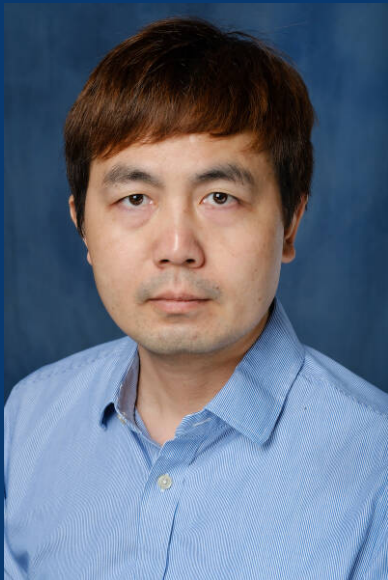

**Jonathan D Licht, MD**  
Professor  
Department of Medicine

**Mingyi Xie, PhD**  
Associate Professor  
Department of Biochemistry and Molecular  
Biology

**Dr. Licht and Dr. Xie** have been awarded a new National Institutes of Health R01 grant entitled, "Exploring microRNA degradation in T-cell acute lymphoblastic leukemia"

**Jiang Bian, PhD**  
Professor  
Department of Health Outcomes and  
Biomedical Informatics

**Dejana K Braithwaite, PhD**  
Professor  
Department of Surgery

**Dr. Bian and Dr. Braithwaite** have been awarded a new National Institutes of Health R01 grant entitled, "Advancing Precision Lung Cancer Surveillance and Outcomes in Diverse Populations (PLuS2)"

**Eduardo Candelario-Jalil, PhD**

Associate Professor Department of Neuroscience has been awarded a new National Institutes of Health R01 grant entitled, "Role of RIPK2 in the neuroinflammatory response to ischemic stroke"

## Ready to Elevate Your Teaching? Join Our Guided Expedition for Personalized Faculty Development!

Embark on a guided expedition with Elevate, a Center for Teaching Excellence faculty development program. This initiative will help faculty create a customized trajectory for professional development, focusing on growth in areas they have identified through self-reflection. Elevate promotes best practices and research-based strategies that faculty can quickly incorporate into their teaching practice. Learn more and register on our [website](#)

WEDNESDAYS | SEPT. 6 - Nov. 29 | 2-3 P.M.

**12-PART LECTURE SERIES | VIRTUAL**

**BIostatistics AND  
Bioinformatics 101  
FOR CANCER RESEARCH**

**BEST PRACTICES FOR DATA**

**OVERVIEW**

Understanding biostatistics and computational biology is paramount for cancer research. This class aims to introduce the best practices for data and promote rigorous and reproducible scientific approaches for cancer research.

**Download syllabus.**

**INTENDED AUDIENCE**

Clinicians, fellows, cancer researchers and students looking for an introduction to or refresher on basic biostatistical principles.

**REGISTRATION**

Free and open until Sept. 3 at [bit.ly/BioStat101](https://bit.ly/BioStat101). Registrants may choose to attend only selected lectures. However, certificates will only be awarded to participants who attend and complete the associated assignment for 10 or more of the 12 lectures.

**INSTRUCTORS**

The lectures will be presented by the faculty and staff of the Division of Quantitative Sciences.

**FIND OUT MORE**

For more information, contact:  
Ken Thompson | 352-273-8822  
or visit the link below.

[bit.ly/BioStat101](https://bit.ly/BioStat101)

## Biostatistics & Bioinformatics 101

This free course aims to introduce the basic statistical and computational biology concepts and methods for cancer research and promote rigorous and reproducible statistical approaches for cancer research. The faculty and staff of the UF Health Cancer Center's [Division of Quantitative Sciences](#) teach the course in a virtual 12-lecture series.

**Register by Sept. 3 for fall 2023!**

## Improving patient communication

## Convenient scheduling options have expanded

### Patients can

- ✓ Opt in for text appointment reminders, confirmations and cancellations in addition to email or automated call
- ✓ Reschedule appointments via text
- ✓ Receive referral scheduling messages via email, text or automated call

### Available for most locations and services

- ✓ UF Health Physicians
- ✓ UF Health outpatient services, including Radiology

Visit "IT Customer Updates" on the Bridge.

**Please tell your colleagues about the SCA!**

It's that time of year again! Please let your colleagues know about the Strategic Communications Academy and they will receive a \$150 discount if they mention your name when they register.

Registration is open for our fall SCA cohort (in person) and our new Science Communications Short Course (online). We'd appreciate it if you would forward this to your colleagues and recommend the course:

### **Strategic Communications Academy and Science Communications Short Course: Choose which one is right for you.**

How do you need to communicate to make a difference? What does it take to be a “changemaker”—someone who can build relationships and influence others for the greater good?

#### **We're offering two communications courses this fall. Choose which one is right for you.**

**[Strategic Communications Academy](#)**: Our acclaimed communications course will help you hone your strategies to create effective communications. You'll learn how to approach communications through a systems lens, how and when to use stories, how to write and deliver unforgettable presentations and create messages that resonate with the people you're trying to engage. This **six-month** academy meets **in person** at the Reitz Union one day a month. **Designed for all UF faculty and staff**, you'll receive one-on-one coaching and the opportunity to build your skills by applying what you learn to projects that are important to you. And you'll have the opportunity to pull together everything you learn in a final project.

**[Science Communications Short Course](#)**: This **online, three-month course** is tailored for **scientists, researchers and science communicators** who want to become more effective in their communication with funders, collaborators, media, policymakers and the people who can benefit from your work. You'll learn science-based frameworks that will help you convey complex information to people outside of your field and address uncertainty and respond to misinformation. We'll provide you with tools to deliver presentations with confidence and build your influence in your field. The class meets every other week, **online** for **three-hour sessions** from September 27 to December 14, 2023.

## **Communication Courses**

**This fall, the Center for Public Interest Communications is offering two communications courses. Choose which one is right for you!**

#### **[Strategic Communications Academy](#):**

Designed for all UF administrators, faculty and professional staff, this course is **held in person**, in the Reitz Union, **one day a month for six months**. Starts Oct. 16, 2023

or

**Science Communications Short Course:** This online, three-month course is tailored for **scientists, researchers and science communicators** who want to become more effective in their communication with funders, collaborators, media, policymakers and the people who can benefit from your work. Starts Sept. 27, 2023

Click on the links above to learn more about the different courses.

Deadline to apply for either course is Sept 15, 2023.

## Fall 2023 HSC Library fall workshops

The Health Science Center Library will offer the following online workshops this semester, independent of registered coursework and open to all. Links to the Zoom meetings for online workshops are provided at registration through the links below or at: <https://ufl.libcal.com/calendar/HSCLWorkshops>

### 20 Minutes to Impact Series: Online

#### ORCID and Dimensions

*Friday, September 1, 12-12:30pm*

This workshop will cover creating your ORCID ID and linking it to Dimensions to add articles to your researcher profile with one click.

*Part of the 20 Minutes to Impact series where you will learn about a research impact metric or tool and receive step-by-step instructions which you can actively follow to accomplish an impact-related task by the end of the workshop.*

<https://libcal.uflib.ufl.edu/calendar/HSCLWorkshops/20MinORCID>

#### Introduction to Research Impact

*Friday October 20, 12-1pm*

This session will introduce some metrics commonly used to measure research impact. We will demonstrate where metrics can be found, discuss how they are used and issues related to their misuse, and suggest some steps you can take to improve your own impact.

<https://ufl.libcal.com/calendar/HSCLWorkshops/Impact>

### **Demonstrating impact using Dimensions Analytics**

*Friday, November 3, 12-12:30pm*

Explore how Dimensions Analytics can be used to help you demonstrate your research impact.

*Part of the 20 Minutes to Impact series where you will learn about a research impact metric or tool and receive step-by-step instructions which you can actively follow to accomplish an impact-related task by the end of the workshop.*

<https://libcal.uflib.ufl.edu/calendar/HSCLWorkshops/20MinutesToImpact-Dimensions>

### **Demonstrating impact using Altmetric Explorer**

*Friday, December 1, 12-12:30pm*

Explore alternative metrics in Altmetric Explorer and learn how they might be useful in demonstrating your research impact.

*Part of the 20 Minutes to Impact series where you will learn about a research impact metric or tool and receive step-by-step instructions which you can actively follow to accomplish an impact-related task by the end of the workshop.*

<https://libcal.uflib.ufl.edu/calendar/HSCLWorkshops/20MinutesToImpact-Altmetric>

### **Best Practices in Data Management (Online)**

*Wednesday, October 18, 12:30-1:15pm*

Learn practical strategies for best managing your research data. Several U.S. funding agencies such as the National Science Foundation and the National Institutes of Health require researchers to supply plans for managing research data, called Data Management Plans (DMP), or the newest format, Data Management Sharing Plan (DMSP) for all grant proposals. This workshop will provide an overview of the questions to consider when creating a data management plan, with a focus on the DMPTool and tools for sharing your data at the University of Florida (e.g., subject-specific repositories). Topics include metadata and annotation, file formats and organization, storage, backups and security, and data sharing. The workshop is geared toward graduate students, faculty, and researchers.

<https://libcal.uflib.ufl.edu/event/11132300>

### **Embase (Online)**

*Wednesday, September 13, 12-1pm*

*Tuesday, October 24, 11am-12pm*

This class will take you step-by-step through effective literature search and save techniques—starting smartly, limiting efficiently, searching for specific info (authors, types of publications, specific journals), refining your search, and exporting results to the bibliographic software. Embase is an essential database for systematic reviews and meta-analysis, but also offers tools for clinical care and pharmacovigilance.

September 13: <https://libcal.uflib.ufl.edu/calendar/HSCLWorkshops/Embase-Sep-2023>

October 24: <https://libcal.uflib.ufl.edu/calendar/HSCLWorkshops/Embase-Oct-2023>

### **“Find it @ UF”: Grab Articles Quickly Mini-Workshop (Online)**

*Wednesday, September 6, 11:30-11:45am*

Need to locate an article quickly? The blue “Find it @ UF” button is the key! This 15- minute workshop will show you how to find that button in several UF databases and use it to access articles.

August 29: <https://libcal.uflib.ufl.edu/calendar/HSCLWorkshops/Find-It-Aug-23>

September 6: <https://libcal.uflib.ufl.edu/calendar/HSCLWorkshops/Find-It-Sep-23>

### **How to write a publishable article using CONSORT (Online)**

*Friday, September 29, 12-1pm*

This session is designed to teach attendees how to write a research article suitable for publication in a peer-reviewed journal. It is particularly suited to those with clinical trial results to report, who are inexperienced at composing articles for publication. We will focus on using the CONSORT reporting standard as a blueprint to make writing the manuscript a clear-cut and attainable task. In addition, attendees can sign up to be part of a peer-writing group if they choose. <https://ufl.libcal.com/calendar/HSCLWorkshops/CONSORT>

### **Introduction to EndNote Web (Online)**

*Thursday, September 7, 11-12pm*

Come and see what you can do with EndNote Web, a program designed to help you organize your reference citations. You will learn how to create and navigate the EndNote libraries,

enter individual citations, and search/retrieve citations from EndNote, as well as how to download citations from PubMed, library catalogs, other databases, and import them into your library. We will learn how to use the 'Cite While You Write' toolbar and different ways of inserting citations into your papers for publication. It's easy to generate a bibliography according to the style of any particular journal! This class focuses on the EndNote Web.  
<https://libcal.uflib.ufl.edu/event/11137725>

### **Introduction to Nursing/Allied Health Literature (Online)**

*Wednesday, September 6, 10am-11am*

*Monday, October 2, 2-3pm*

Looking for an introduction to the premier database of nursing and allied health literature? This class introduces you to basic and advanced search options; performing more accurate searches using CINAHL headings; using limits to narrow and refine your search; printing, emailing, and exporting your citations; creating a personal account to store your citations; and finding full-text articles.

September: <https://libcal.uflib.ufl.edu/calendar/HSCLWorkshops/IntroToCINAHLSep2023>

October: <https://libcal.uflib.ufl.edu/calendar/HSCLWorkshops/IntroToCINAHLOct2023>

### **Introduction to PubMed (Online)**

*Monday, September 25, 10-11am*

*Monday, November 6, 11am-12pm*

This class will take you step-by-step through effective literature search and save techniques—starting smartly, limiting efficiently without losing “good stuff”, searching for specific info (authors, types of publications, specific journals) and refining your search. Depending on participant interests/needs and time, we may also cover setting up email alerts, transferring to bibliographic software like Mendeley or EndNote, filtering for evidence-based studies, building collections within PubMed or other functions within PubMed.

*This workshop is open to everyone; NO previous experience with PubMed is required.*

September 25,

2023: [https://libcal.uflib.ufl.edu/calendar/HSCLWorkshops/PubMed\\_Fall2023\\_1](https://libcal.uflib.ufl.edu/calendar/HSCLWorkshops/PubMed_Fall2023_1)

2023: [https://libcal.uflib.ufl.edu/calendar/HSCLWorkshops/PubMed\\_Fall2023\\_2](https://libcal.uflib.ufl.edu/calendar/HSCLWorkshops/PubMed_Fall2023_2)

### **Introduction to Researcher Profiles (Online)**

**Friday, December 15, 12-1pm**

This session is a broad introduction to a number of researcher profile tools. We will show how they compare to each other and discuss why you might want to monitor more than one.

### **Introduction to Systematic Reviews (Online)**

*Thursday, October 12, 11am-12pm*

This session will introduce students to the different types of evidence synthesis and cover the basics of conducting a systematic review!

Topics covered include:

- Developing the research question and protocol
- Searching process
- Choosing Databases
- Publication Bias
- Creating the Search Strategy
- Grey Literature
- Using Covidence
- Evidence Rankings
- Presenting the Data: systematic reviews and meta-analysis
- Writing the Methods Section

### **Medical Terminology (Online)**

*Tuesday, October 17, 1pm-3pm*

*Wednesday, October 18, 1pm-3pm*

*Thursday, October 19, 1pm-3pm*

Basics of medical terminology. Key concepts and word building, as well as the basics of body structure, including cells, tissues, organs, and body planes will be covered. **Parts 1, 2, and 3 make up a single course. Attendees should plan to attend all three sessions in order to complete the training.**

*This workshop is open to everyone; NO previous experience/knowledge of Medical Terminology is required.*

### **Mendeley (Online)**

*Tuesday, November 14, 11am-12*

Do you want citation management software that will follow you wherever your education and career path take you? Mendeley is a free citation management resource that you can use during your time at UF or anywhere else you may go in the future. In this class, you will learn how to use Mendeley to import references from different databases, sort your citations and annotate papers, and insert collected citations directly into your own papers.

<https://libcal.uflib.ufl.edu/calendar/HSCLWorkshops/Mendeley-Fall-202>

### **NIH Public Access Policy Compliance (Online)**

*Friday, November 17, 12-1pm*

This workshop provides an introduction to the NIH Public Access Policy and demonstrates how to fulfill compliance requirements. We will cover how to use the NIH Manuscript Submission System and discuss the various approaches of journal publishers towards compliance. <https://libcal.uflib.ufl.edu/calendar/HSCLWorkshops/NIHPublicAccess>

### **Overview of Citation Management (Online)**

*Wednesday, October 4, 11am-12*

*Wednesday, November 1, 11am-12*

EndNote, SciWheel, Mendeley, Zotero... so many options for organizing references for your research! This course offers a brief introduction to key elements of citation management--from collecting citations to placing references in your writing--for EndNote, SciWheel, Mendeley, and Zotero. If you are new to research and looking for ways to manage your references or are experienced but looking for other options, this workshop will compare and contrast available citation management software for your convenience!

October 4: <https://libcal.uflib.ufl.edu/calendar/HSCLWorkshops/Citation-Oct-23>

November 1: <https://libcal.uflib.ufl.edu/calendar/HSCLWorkshops/Citation-Nov-23>

### **Publish, Don't Perish: Tools to make writing your article easier (Online)**

*Friday, September 15, 12-1pm*

This session will be a broad introduction to writing a manuscript for submission to a peer-reviewed journal. It will cover selecting a journal, types of articles, and locating appropriate reporting standards. Attendees wishing to take the next step and begin writing a manuscript for submission to a scholarly journal will be encouraged to take the most appropriate course in the Good Reporting Practices (GRPs) series for more in-depth coverage.

<https://ufl.libcal.com/calendar/HSCLWorkshops/Publish>

### **SciWheel (Online)**

*Wednesday, September 20, 11am-12*

If you are interested in citation management software with the ability to cite and annotate resources and websites online, SciWheel might be the tool for you. This class will go over importing citations, annotating papers and webpages, and inserting citations into your own publications.

### **Welcome to the HSC Library Website and Ask Me Anything (Online)**

*Wednesday, August 30, 4-4:20pm*

*Wednesday, September 27, 12-12:20pm*

*Thursday, October 26, 9-9:20am*

*Tuesday, November 28, 12-12:20pm*

Come take a quick tour around our Health Science Center Library website! This brief introduction is designed to orient new and long-time library users alike to accessing our collections and services through the website. You can also take it as an opportunity to ask any questions you might have about the HSCL.

### **Zotero (Online)**

*Tuesday, October 31, 11am-12pm*

Do you want a citation management tool that works for you here and for your career beyond UF? Zotero is an open-source citation management software that you can use to import references from the web or a variety of databases, organize and share your citations, annotate papers, and insert citations directly into your own papers.
